(b) If a facility receives, from a rail or water (bulk shipment) transporter, hazardous waste which is accompanied by a shipping paper containing all the information required on the manifest (excluding the Identification Numbers, generator's certification, and signatures), the owner or operator, or the facility's agent, shall:

(1) sign and date each copy of the manifest or shipping paper (if the manifest has not been received) to certify that the hazardous waste covered by the manifest or shipping paper was received;

(2) note any significant discrepancies as defined in section 66265.72 (a) in the manifest or shipping paper (if the manifest has not been received) on each copy of the manifest or shipping paper;

(3) immediately give the rail or water (bulk shipment) transporter at least one copy of the manifest or shipping paper (if the manifest has not been received);

(4) within 30 days after the delivery, send a copy of the signed and dated manifest to the generator; however, if the manifest has not been received within 30 days after delivery, the owner or operator, or the facility's agent, shall send a copy of the shipping paper signed and dated to the generator;

(5) within 30 days of each receipt of hazardous waste submit to the Department a legible copy of each manifest or shipping paper (if the manifest has not been received) used; and

(6) retain at the facility a copy of the manifest and shipping paper (if signed in lieu of the manifest at the time of delivery) for at least three years from the date of delivery.

(c) Whenever a shipment of hazardous waste is initiated from a facility, the owner or operator of that facility shall comply with the requirements of chapter 12 of this division.

The original copy of the tracking document shall be maintained at the facility for at least three years from the date of signature.

(e) Whenever hazardous waste is received by a facility from a transporter in a vehicle or bulk container that will be removed from the facility after emptying, the transporter shall determine by inspection whether the vehicle or bulk container is empty pursuant to section 66261.7 prior to the removal of the vehicle or bulk container from the facility.

(f) If a vehicle or bulk container cannot be rendered empty pursuant to section 66261.7 by equipment and methods available at the facility, the transporter shall follow the procedure in subsection (b) of section 66263.21.

(g) The provisions of section 66262.34 are applicable to the on-site accumulation of hazardous wastes by generators. Therefore, the provisions of section 66262.34 only apply to owners or operators who are shipping hazardous waste which they generated at that facility.
